

What is the deposit option of the Europe Coin Wallet

With the deposit option of the Europe Coin Wallet you can receive interest on the Europe Coins you have in the wallet.

With this system you can 'lock' amounts for a specific timeperiod.

Depending the time period you receive interest.

The interest rates you will receive:

| Term | % of Total APR |
|---------|----------------|
| 1 month | ~ 3% p.a. |
| 2 month | ~ 3,4% p.a. |
| 3 month | ~ 4 % p.a. |
| 6 month | ~ 4,5% p.a. |
| 1 year | ~ 5 % p.a. |

With the wallet you can specify yourself which amounts you want to deposit and also the timeperiod you want to deposit.

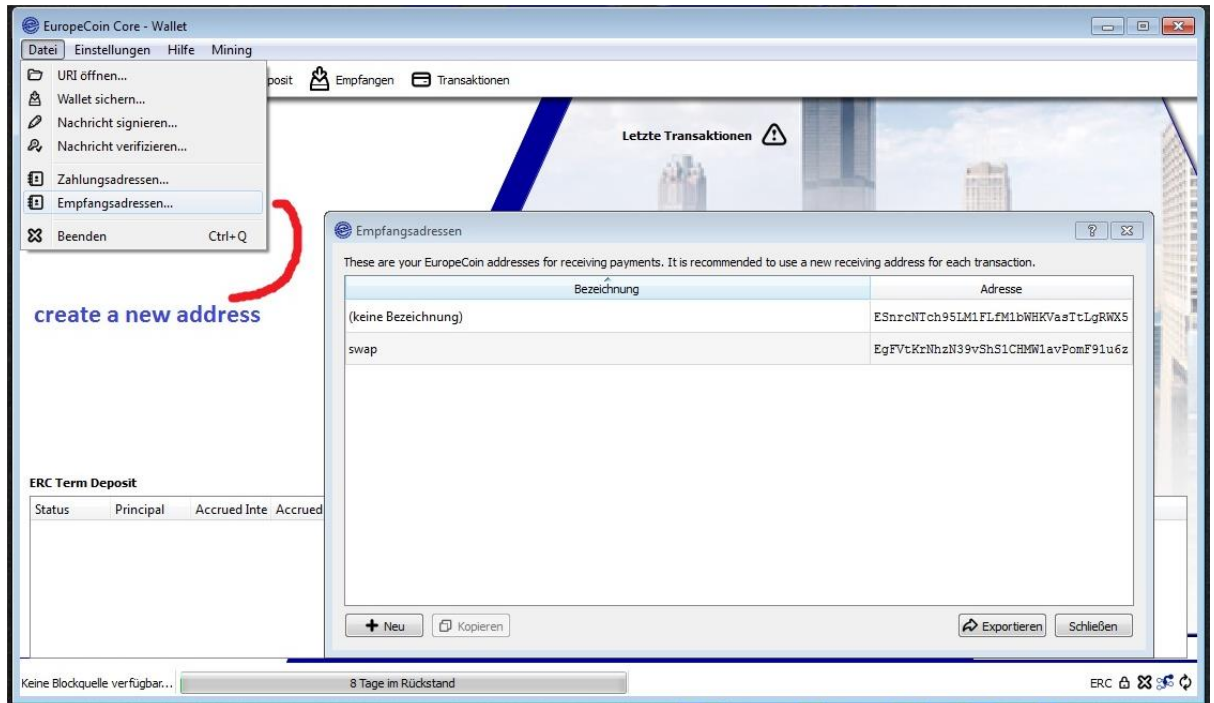

Be aware: once you have set a certain amount to deposit, you cannot spend the amount. It is still visible and part of your wallet, but it is locked till the timeperiod you have set is passed.

5) View the status/results of your deposit

The screenshot shows the 'EuropeCoin Core - Wallet' application window. The interface includes a menu bar (Datei, Einstellungen, Hilfe, Mining) and a toolbar (Übersicht, Überweisen, Deposit, Empfangen, Transaktionen). The main content area is divided into several sections:

- Kontostände**: Shows account balances for ERC, including Verfügbar, Ausstehend, Unreif, and Gesamtbetrag.
- Letzte Transaktionen**: A list of recent transactions with timestamps and ERC amounts.
- ERC Term Deposit**: A table showing the details of term deposits.

A blue diagonal banner with the text 'EuropeCoin Core 1.1.3' is overlaid on the interface. A text box on the right side of the table provides instructions: 'this should be the result for timedeposit; be sure, that locked coins are LOCKED for ur expected timeperiod'.
